RELIGIOUS EDUCATION POLICY FOR
CATHOLIC SCHOOLS IN KILDARE & LEIGHLIN DIOCESE
ST JOSEPH'S, BALLYADAMS NATIONAL SCHOOL

INTRODUCTION:

This policy has been formulated by the staff of Ballyadams National School in consultation with the Board of Management and Parent Association in consultation with our local religious co-ordinator, Maeve Mahon.

THE AIM OF RELIGIOUS EDUCATION IN A CATHOLIC SCHOOL

The aim of Religious Education is to help children mature in relation to their spiritual, moral and religious lives, through their encounter with, exploration and celebration of their Catholic faith¹.

THE VISION FOR RELIGIOUS EDUCATION IN A CATHOLIC SCHOOL

In the Irish context the educational vision of the Church is a pastoral one. It acknowledges the complementary, connected, but different roles of the home, school and parish community in the faith education of children.

In this vision parents are the first and the primary teachers of their children in faith and the home is the first school of faith.

The parish is where children learn to worship, where they meet Jesus Christ in sacramental celebrations and where they experience and share in the mission of the Church.

Religious education in the Catholic primary school has two distinct but complementary dimensions; the educational dimension and the faith formation dimension.

- The educational dimension is centred and founded on the formal curriculum and focuses on the values and teachings of the Catholic Church. It teaches children the skills of spiritual, moral and religious literacy. The Religious Education outcomes at each level in the curriculum reflect this dimension.

¹ Catholic Pre-School and Primary Religious Education Curriculum for Ireland page 31

- The faith formation dimension forms the children's characters in the virtues and values of Jesus, supports their faith development and helps them to experience what it means to be a member of the Church. The faith formation goals in the curriculum (pp 134-143) support and reflect this dimension.

An important part of this vision is our response to religious and cultural change in our society. Catholic schools are places where all are respected and valued. This includes the many different levels of faith that we will encounter in both our teachers and pupils and those pupils who are of other faiths and different stances for living.

AIM OF RELIGIOUS EDUCATION POLICY

The purpose of this religious education policy is

- To ensure that we strive to understand and promote religious education in a Catholic primary school as never simply one subject among many, but the foundation of the entire educational process. ²
- To ensure that formal teaching in matters of belief, values and practice that equip children for a free and intelligent expression of personal faith within the family, Church and wider society is provided. *(based on Share the Good News 39)*
- To appreciate the richness of all religious traditions, especially those present in our school community, and to provide a framework to encounter these traditions.
- To provide appropriate religious education for the different levels of faith commitment that we encounter in our classrooms
- To lead to a greater degree of clarity in respect of aims, procedures and roles for RE in the school.
- To assist all members of staff in the teaching of Religion.
- To consider strategies that respond to the needs of children of different faiths and other stances for living in terms of religious education.
