

Rounding to the Nearest Ten Game.

How to play:

This is a two-player game.

You will need counters/Lego or blocks.

Place a counter or whatever you are using on each square.

Take turns to remove a counter to reveal a number.

Read the number and round it to the nearest ten. Say it out loud "45 rounds to 50".

If you are correct, you keep the counter. If incorrect, place the counter back.

The player with the most cubes at the end of the game wins!!!

You can make your own game with different numbers!
There is a blank template below you can print. If you cannot print you can make and design your own game.

67	53	9	15	61
55	29	87	77	18
11	36	83	52	38
22	41	92	75	56
